

Press release

Date : 03/03/2022

Good looking and very useful:

New magnetic socket rails for sockets and bit sockets

Wuppertal. The new Wera magnetic socket rails are extremely useful helpers in everyday work. Up to 10 sockets and/or bit sockets can be securely locked. Thanks to the magnetic force, the rails can be easily attached to metal surfaces such as walls, shelves or workshop trolleys. Taking them with you is also easy and safe. Using the tried and tested "twist to unlock" function, the tools can be easily locked and unlocked - simply turn and remove or insert.

New addition to the assortment: 10 equipped socket rails in 1/4", 3/8" and 1/2".
